

## Meeting 1 Sprint Planning

### Team Name - **Group 17**

Group Members- Alexander Griffin, Carson Jacobus, Eduardo Benitez, Luna Leavens

### Sprint Name - **Sprint 2**

#### Backlog Refinement

Which changes, if any, did your team make to your product backlog?

**Last week we worked on the database design assignment so we have a template for what our database will look like and what features it will hold/need to be implemented. We need to begin adding project files for github so team members can edit code and create features.**

#### Rolled Over Tasks

Which tasks from the last sprint will be rolled over into this sprint, if any?

**All tasks outlined in Sprint 1 planning were completed so no tasks were rolled over.**

#### Sprint Tasks

List out the tasks you have in this sprint, along with their story points and assignee. Add rows as needed.
